Since our founding in 1983, EXCEL has grown to a force of over 6,000 professionals operating globally, while remaining true to the original principles of our heritage.

With diverse backgrounds, EXCEL’s people command deep logistics expertise and have access to thousands of resources. We apply our collective expertise to a broad range of services in the disaster recovery framework. We prepare, respond, and recover with full recovery in mind.

Our people share a common passion for technical excellence and innovation and work to go beyond to deliver quality which is at the core of our culture.

Dave Roberts, CEO

WE DO BUSINESS THE RIGHT WAY, NOT JUST THE EASY WAY.

With a global footprint and local presence, EXCEL provides integrated disaster services. We’ve managed hundreds of disasters. Our highly trained workforce has decades of robust industry experience and knowledge. Our people have and will always be our best assets.

Our people share a common passion for technical excellence and innovation and work to go beyond to deliver quality which is at the core of our culture.

TRUST AND COLLABORATION ARE THE FOUNDATION OF SUCCESSFUL DISASTER RECOVERY.

WE DELIVER EXCELLENCE EXCEL

DISASTER RECOVERY CAPABILITIES

Response with Recovery in Mind

EXCEL mobilizes immediately to aid community recovery, with robust project management principles guiding the way.
ABOUT US

With over 35 years of project experience, EXCEL has built its legacy providing first-class construction services throughout the world. In addition to our long and successful history providing industrial construction and maintenance services, EXCEL has become a key provider of professional services, logistics, and construction solutions following disasters.

EXCEL delivers community recovery and stabilization by leveraging our supply chain and logistics resources, company-owned equipment, and 6,000+ personnel. Immediately following impact, EXCEL works with communities to provide preparedness support, rapid response, emergency construction, recovery construction, and recovery support.

Our goal is to protect, save, and recover impacted communities with total recovery in mind. We do this by approaching our work with a dedication to excellence that raises the bar for others. Our approach is based on an extremely productive and efficient labor resources. Whether responding to an unprecedented global pandemic or a natural/made-made disaster, our resources are ready to deploy 24/7/365 rain or shine.
