WE’VE GOT YOUR BUSINESS COVERED – 360 DEGREES

Providing comprehensive solutions for your maintenance, fabrication and construction needs

Located at mile marker 360 on the Mississippi River, Great River Industries is a recognized leader in specialized manufacturing, fabrication and construction services. Located on a deep water channel, we have access to any port across the globe. The number 360 represents more than a geographical reference point to us. We use our 360° Solution as the approach to every project.

For your business, that means we are a comprehensive, single-source provider. We evaluate each project from every angle to ensure success. Our ASME engineering expertise and state-of-the-art techniques make sure your project is completed on time and on budget.

Experience the difference when you work with Great River Industries – where quality, innovation and safety come full circle.

OUR COMPLETE VIEW ON SAFETY

At Great River Industries, safety on the job site and in our shop is our culture. We honor that commitment through a Behavior-Based Safety (BBS) program, the use of Human Performance Improvement (HPI) tools and employee training requirements that exceed industry standards.
THE 360° DIFFERENCE

• **PLANT MAINTENANCE & CONSTRUCTION:** Our comprehensive plant maintenance and construction services include engineering, procurement, construction, repairs and maintenance for your production facility.

• **PIPE FABRICATION & ERECTION:** We have extensive expertise with carbon steel, stainless steel, chrome and 2205 Duplex pipe large- and small-scale shop fabrication and installation.

• **ASME PRESSURE VESSEL & API STORAGE TANK FABRICATION:** From engineering through fabrication and erection, we offer a variety of pressure vessels and storage tanks, including reactors, columns and towers for everything from orange juice to polymers. In addition to fabrication expertise we offer repair and modification capabilities.

• **CONSTRUCTION FIELD SERVICES:** Skilled, certified craftspeople and dedicated project managers provide turnkey engineering, fabrication, civil and mechanical construction on your job site.

• **HEAD MANUFACTURING:** We offer in-house vessel head manufacturing, providing greater control over project schedules and quality of the completed vessel.

• **EMERGENCY TURNAROUND CAPABILITIES:** When your equipment goes out of service, it affects your business. We offer 24-hour onsite service response for immediate needs and emergency turnaround timing to meet your urgent requests. With more capabilities managed in-house – world-class material procurement, tank and vessel head manufacturing, and NDT testing – we can achieve even the tightest timelines.

QUALITY AT EVERY ANGLE

We believe that quality is more than a word to toss around casually. At Great River Industries, we insist on providing the highest-quality products and services for every project. Our team adheres to ASME and API standards and holds certificates of authorization for ASME U, R, S and PP code work. Our quality-assurance team includes AWS-certified welding inspectors, and we can offer a wide variety of in-house NDT services.

WE CIRCLE THE GLOBE WITH DELIVERIES

Located on a deep water channel with access to any port in the world, we can deliver projects wherever you need them. We’ll work with you to determine your scheduling needs, then we devote the manpower and transportation resources for on-time delivery.

INDUSTRIES SERVED

Our teams with their extensive experience and certifications provide a 360° Solution to the following industries:

• Plant Maintenance
• Chemical/Petrochemical
• Refining
• Natural Gas & LNG Storage
• Power Generation
• Pulp & Paper
• Food & Beverage
• Water Treatment
